

5 March 1971

MEMORANDUM FOR: Deputy Director for Intelligence

SUBJECT: Interagency Foreign Affairs Research  
Group (NSDM 98)

Here is an Irwin memo setting up an interagency foreign affairs research group under Ray Cline (NSDM 98).

CIA is proposed as an observer.

It would appear that the Director would request someone from your staff for this role. I am therefore sending this to you first so you will be prepared by the time the Director's attention is called to it. The nominee should be chosen, according to Irwin, by 15 March at which time Ray Cline can be advised.

Since this office coordinates Under Secretaries matters I would appreciate a copy of the letter being sent to State in this regard or, if this is too formal, we can advise Cline by telephone.
